<b>Office Action Summary</b>	<b>Application No.</b> 10/730,618	<b>Applicant(s)</b> BRESSLER ET AL.	
	<b>Examiner</b> David J. Walczak	<b>Art Unit</b> 3751	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 03 February 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

### ***Specification***

The disclosure is objected to because of the following informalities: In paragraph 0022, it appears that "piston 30" should be --piston 33-- since reference character 33 was added to the drawings via the amendment filed 2/3/06 but not added to the specification. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

Claims 10-15 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In regard to claim 10, it remains unclear as to whether or not the reservoir is intended to be part of the claimed combination. Should the Applicant intend to claim the reservoir, an antecedent basis for the reservoir should be defined. Should the Applicant not intend to claim the reservoir, "adapted to be" language should be employed when referring thereto. It is noted that this rejection was made in the previous office action but was not addressed by the Applicant.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 3751

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3-5 and 10 remain rejected under 35 U.S.C. 102(e) as being anticipated by Sims (as cited by Applicant). In regard to claims 1 and 10, Sims discloses a shaving apparatus comprised of a reservoir 15 for storing a shaving aid material, a razor cartridge 2 having razor blades 5 therein and a valve comprised of a spring loaded plug element 24 coupled to the cartridge and positioned within an orifice (within element 20) wherein a first position of the valve permits passage of the shaving material and a second position of the valve prevents the passage of material. In regard to claim 3, the plug 24 is disposed on a stem (the element through which bore 25 extends). In regard to claim 4, the stem is axially translatable within a manifold 17. In regard to claim 5, seal member 22 is disposed adjacent the stem.

### ***Allowable Subject Matter***

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 11-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 7-9 are allowed.

### ***Response to Arguments***

Applicant's arguments filed 2/3/06 have been fully considered but they are not persuasive. The Applicant contends that the Simms reference is not applicable against claims 1 and 10 in that it does not include a spring loaded plug received by an orifice since the plug 24 is not received by orifice 27. The Examiner, however, has not indicated that the plug element is received in orifice 27. The Examiner maintains the element 20 defines an orifice which receives plug element 24. Accordingly, the claims stand rejected as discussed supra.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
